ENG 47 48 49 50 51 52 53 54 55 56	SED-CAR CHECKUST Popular Med  GINE  With the engine off, squeeze the hoses (be careful, they may be hot). Do they feel stiff or brittle?  Are there cracks in the belt(s)?  Are there any wires not covered by sheathing?  Are there any loose hose clamps?  Are there any loose and corroded battery clamps?  Is the battery more than 4 years old?  Is there any sign of fluid leaks at the accessories (power-steering pump, brake reservoir)?  Any evidence of nesting mice or other animals?  Is the air filter dirty?  Are fluid levels (power steering, brake, coolant, oil and transmission) below the minimum?  Check for oil change stickers. Is the car long overdue?  Is there seepage at the bottom of the	Yes	No O	<ul> <li>ON THE ROAD</li> <li>BO Drive the car in tight circles in a parking lot. Does anything rub or clunk?</li> <li>B1 Brake firmly. Does the pedal feel soft and mushy?</li> <li>B2 Does the feel of the brake pedal change (e.g., soft one stop, firm the next)?</li> <li>B3 Does the car veer to one side while braking?</li> <li>B4 Drive over some bumps at normal speeds. Does the car bounce up and down after hitting a bump?</li> <li>B5 Do you hear any loud noises from the suspension, such as clunks or creaks?</li> <li>B6 Get up to highway speeds. Is there any vibration?</li> <li>B7 Is the steering wheel off-center when the car is going straight?</li> <li>B8 Do you hear excessive wind noise?</li> <li>B9 Do the interior pieces rattle over bumps?</li> <li>90 Does the car pull to one side?</li> <li>91 Accelerate briskly. Does the transmission jerk at the shift points?</li> <li>92 Does the car accelerate in fits and starts?</li> <li>93 Manual transmission: Put the car in top gear while driving at 30 mph. Floor the throttle. Do the engine revs climb and the part of the climbal starts in the part of the climbal starts in</li></ul>		
56	brake reservoir?			quickly, as if the clutch is slipping?  DEAL BREAKER		
59	Is there sludge in the bottom of the coolant reservoir?			<b>94</b> Do you hear any knocking noises from the engine		_
60	If the engine has a timing belt, is it older than 4 years? If unknown, answer "yes."			that get faster with higher engine speed? <b>95</b> Does the car feel tired, as if it's worn out?		
62 63 64 65	Put a drop of oil from the dipstick on a clean, dry rag. Does it appear gooey or black?  Are there shiny metallic particles in the oil?  Does the oil look milky or smell like gasoline?  Remove the oil filler cap. Are there thick, black deposits in the cylinder head?  Sniff the automatic transmission fluid dipstick.  Does it smell burnt?  Wipe the dipstick on a clean, white rag. Are there a lot of black particles, or is the fluid dark?			<ul> <li>TEST DRIVE (WITH A FRIEND)</li> <li>96 Have someone watch the headlamps and marker and brake lights as you operate them. Are any burned out?</li> <li>97 With your friend standing behind the car, start the engine. Is there sustained visible smoke?</li> <li>98 With your friend following, drive the car. Do the wheels wobble, or does the vehicle have an odd stance (e.g., it rides low in the rear)?</li> <li>99 Is there smoke coming from the exhaust during acceleration?</li> </ul>		
(RE INS 67	GINE, ADVANCED QUIRES A MORE RIGOROUS PECTION; CLEAR WITH OWNER FIRST) Check the battery for parasitic drains. Is the standby current more than 75 milliamps?			POST-TEST-DRIVE INSPECTION  100 Look under the hood. Do you hear a hissing noise?  101 Check under the car again. Any sign of fresh fluid leaks?		
69 70 DE 71	Check the voltage between the coolant and battery ground. Is it higher than 250 millivolts?  Plug in a scan tool. Are there any pending codes?  Pressure-test the cooling system. Does it leak?  AL BREAKER  Do a compression test. Are any of the cylinders 25 percent lower or more than the highest?  Do a cylinder leak-down test. Do any cylinders leak more than 15 percent?			Number of "yes" answers  Fewer than 5 Probably a cream puff 5 to 10 Relatively easy to fix More than 10 Potentially a time sink, but nothing	ς serioι	
73 74 75 76	Are there any strange noises (belt squeak, exhaust leak)?  Turn the key to the "on" position. Do the warning lights fail to illuminate?  Start the car. Do the warning lights remain on?  Does the airbag light stay on or blink?			Fewer than 5  Nothing to fret about—it's a used of 5 to 10  Enough DIY fix-its to last a year  More than 10  Just walk away  Fewer than 3  Make a lowball offer  3 to 6  Proceed with extreme caution  More than 6  Abandon all hope, ye who enter he		_ _ _
78	Does the engine fail to settle into a consistent idle within a couple of minutes?  Automatic transmission: Put the car in drive.  Does it clunk into gear?  Manual transmission: Depress the clutch.  Does it feel stiff or ierky?			DEAL BREAKER  One or more deal breakers: Dodge this bullet.
